CABINET KIT ORDER FORM – 10TH ANNIVERSARY CONSTRUCTION PROJECT.

A lot of effort has gone into making this kit suitable for members who do not have extensive woodworking facilities with all parts pre-cut to size. The only extras required are a few screws, glue and some effort! Comprehensive instructions are included and several jigs to assist assembly are available on loan.

The cabinet does not have holes for an escutcheon or knobs drilled so that a chassis of choice can be fitted.

The finished cabinet can be completed by your choice of finish.

Two designs are available for the loudspeaker grille and these are illustrated below:

1. ‘**Classic**’ style similar to the style of the 1930’s on which the cabinet is based.

OR:

2. ‘**AVRS**’ style to commemorate the 10th year of the AVRS.

Price for the complete kit is \$65 plus postage if required.

The kit weighs approximately 1.5kg so collection at General Meetings is the cheapest option.

Kits will be available for collection at the June General Meeting.
